## WORK EXPERIENCE

### Junior Software Developer

September 2022 – Present

Verifone (2checkout)

Bucharest, Romania

Working day by day on maintaining and developing marketplaces and new versions of the 2Checkout cart.

- ▶ Using an agile approach, with two week sprints; working on both sprint and kanban issues.
- ▶ Using JS libraries and frameworks (jQuery, VueJS), NPM Packages, Gulp, Bower.
- ▶ Good understanding of async request handling, partial page updates, and AJAX.
- ▶ Writing semantic, modular front end code using HTML5, CSS3 (including Flex-box/Grid), SASS/LESS preprocessors and W3C coding practices.
- ▶ Collaborating on a daily basis with multiple teams (QA, UX, PS, CRO).

### Intern Software Developer

June 2022 – September 2022

Verifone (2checkout)

Bucharest, Romania

- ▶ Studying the 2Checkout legacy code base and the tech stack used for building it.

### Freecodecamp.org

January 2022 - April 2022

*JavaScript Algorithms and Data Structures; Responsive Web Design.*

### Udemy

December 2021 - Present

ZTM The complete Web Developer 2022 ([certificate/UC-7a782627-3a46-4027-872b-d23e47d1bb77/](https://www.udacity.com/certificate/UC-7a782627-3a46-4027-872b-d23e47d1bb77/))

JS The Advanced Concepts 2022 ([certificate/UC-cccf477d-fff8-4899-89c9-992dfa76e567/](https://www.udacity.com/certificate/UC-cccf477d-fff8-4899-89c9-992dfa76e567/))

Advanced CSS and Sass ([certificate/UC-b628c4e6-8b72-4250-bff2-46c70830eb2c/](https://www.udacity.com/certificate/UC-b628c4e6-8b72-4250-bff2-46c70830eb2c/))

The complete JQuery Course ([certificate/UC-c5d9704f-9ee0-4e8a-a559-d9f82318a625/](https://www.udacity.com/certificate/UC-c5d9704f-9ee0-4e8a-a559-d9f82318a625/))

The complete Node.js Developer Course ([certificate/UC-ee8e01e4-4392-48de-876b-3c3422915547/](https://www.udacity.com/certificate/UC-ee8e01e4-4392-48de-876b-3c3422915547/))

### University of Bucharest, Faculty of Geography

October 2012 - July 2015

## TECHNICAL SKILLS

Programing Languages: HTML, CSS, JavaScript;  
Frameworks/Libraries: JQuery, Gulp, Bower, React, Jest, Vue, Tailwind, Bootstrap;  
Preprocessors: Sass, Less;  
Software: VSCode, Node, Git, Postman;  
Others: Jira, Figma, Excel;

## PERSONAL PROJECTS

**Portfolio Website** ([https://github.com/stefrotaru/my\\_portfolio](https://github.com/stefrotaru/my_portfolio)) - my first personal Portfolio Website, built with Vite using ReactJS and Tailwind. It is fully responsive and it features dark/light mode, a form from which visitors can reach me via email (through a getform.io endpoint) and a typewriter effect!  
**Notifications page component** (<https://github.com/stefrotaru/notifications-page-main>) - simple notifications page component built with Vue3 and Sass.  
**Expenses React App** (<https://github.com/stefrotaru/Expenses-react-app>) - basic react app that keeps track of your expenses. The main objective of this app was to get used with the useState react hook.

## LANGUAGES

Romanian (Native), English (Fluent)

## OTHER SKILLS

Problem-solving/ Team worker/ Creative, I like turning everything into art/ Flexible, capable of adapting to different work environments with ease/ Excellent communication skills/ Eager to learn/ Hard worker

## INTERESTS

Guitar - self-taught, a great hobby which taught me that practice makes perfect.  
Video games - passionate about video games since I was a child, I find them to be great for developing problem-solving skills and connecting with people from all over the world.  
Traveling - I always considered that discovering new cultures and landscapes broadens the mind.  
I like to believe that I live to provide more value than I capture.
